## Executive Summary

### Proposals

In FY17, 973 proposals were submitted requesting a total of \$163M in first-year funding. Of the 973 proposals, 72.5% of the submissions were for new funding, and 66% involved federal or federal flow-through funding.

### Awards

The University of Oregon (UO) was awarded \$114.9M from external funding sources in grants, contracts and other competitive awards for the fiscal year 2016-17 (FY17). This comprised 560 awards received by 302 Principal Investigators (PIs). Direct federal awards in support of UO sponsored activities totaled \$76.1M and the addition of federal flow-through awards brought the total federal award support to \$93.6M, or 81.4% of the total funding awarded in FY17. In FY17 funding from non-federal sources like industry, foundations, and associations increased by 15.7% from FY16.

### Expenditures

Expenditures on 992 active grants and contracts during FY17 totaled \$111.1M, including both direct costs and facilities and administration cost expenditures. FY17 sponsored expenditures increased by 3.6% (\$3.8M) compared to FY16. Expenditure totals cannot be directly compared to award totals for the same fiscal year, because grant periods do not correspond strictly to our fiscal year. Organized Research accounted for \$76.1M (68.5%) of the total sponsored expenditures in FY17, while Instruction and Other sponsored activities accounted for the remainder.

### Facilities and Administrative Costs

Revenue from the federal government and other agencies to recover already expended university Facilities and Administrative (F&A) costs totaled \$22M in FY17. Although the federally negotiated F&A rate budgeted for on-campus organized research activities increased to 46.5% starting in FY17 (45% since FY13), some activities carry a lower F&A rate and some agencies do not allow the federally negotiated rate to be charged to recover the revenue against already expended university costs. The effective F&A recovery rate was 25.0%, an increase compared to FY16 (23.6%).

F&A costs recovered in FY17, together with some ICC fund reserves, were allocated for FY18 expenditures in many areas. These allocations yielded the following distribution:

- Faculty Support\* 42.6%
- Unit Administration (formulaic return based on sponsored activity) 22.0%
- Central Research Administration 22.0%
- Utilities 13.4%

*\*Faculty Support includes capital construction expenditures, start-up costs, retention costs, core research facilities, support for the library and support of programs and activities related to research, scholarship and creative inquiry.*

## Proposal Submissions

Requested Funding Total for Submitted Proposals: **\$162,989,588**

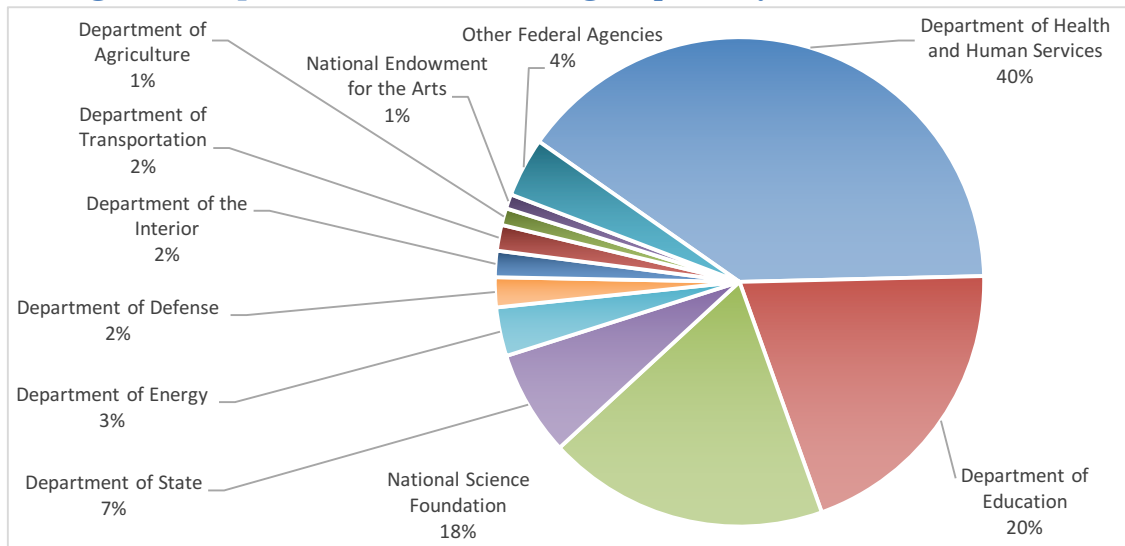

Figure 4 provides additional detail on funding requests by federal agency based on amount.

*Note: For multiyear submissions, only the funding requested for the first year of support is included.*

## Proposal Submissions

Figure 5: Proposal Submissions Counts Across Fiscal Years

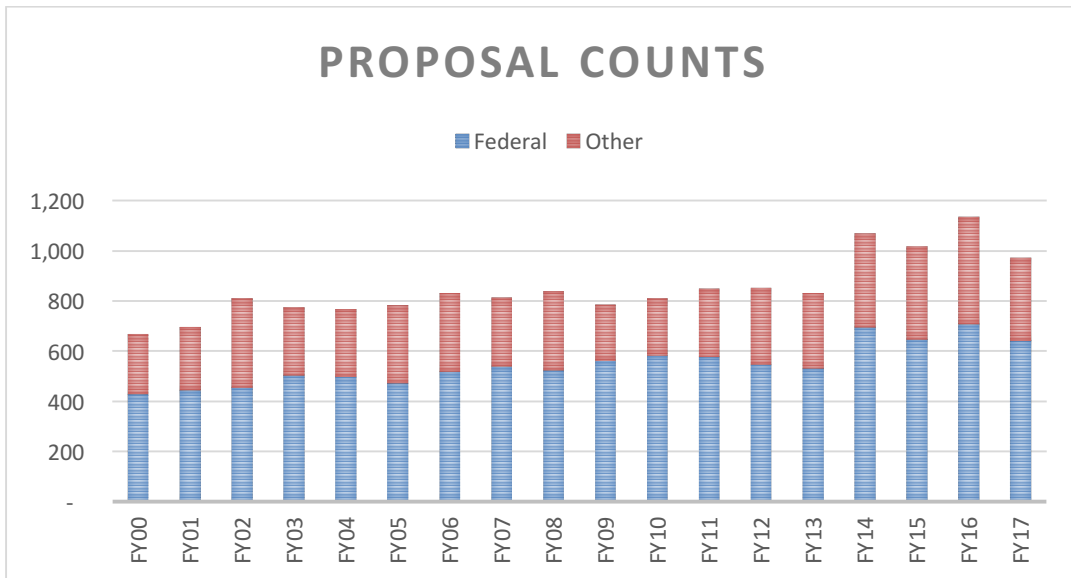

Figure 5 provides a multi-year summary of the number of UO proposal submissions.

## Awards Received

Total FY17 Funding Awarded: **\$114,859,116**

**Figure 6: Total Funds Awarded by Sponsor Type**

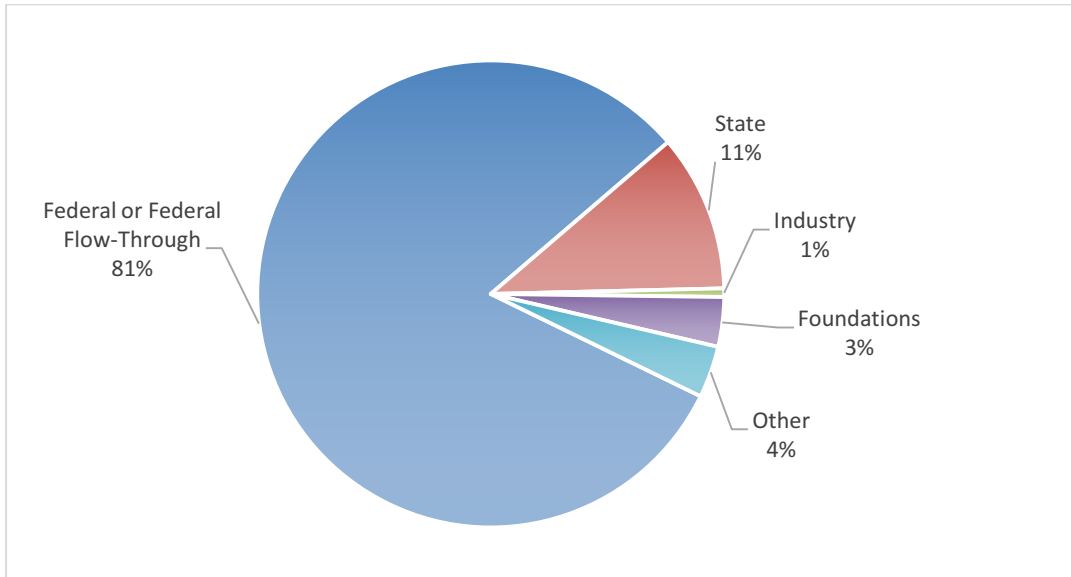

Figure 6 shows total funds awarded to UO in FY17 by sponsor type. Of the 81% federal plus federal flow-through, 66% was direct federal funding and 15% was federal flow-through.
